

I am writing to state my concern regarding LPFM. The radio station that I listen to, K-LOVE, is broadcast nationally on FM translators. I was disappointed to learn that K-LOVE could be forced off the air as a result of giving LPFM priority over FM translators.

K-LOVE serves me, a resident of the local community, by providing commercial free, positive and encouraging music and news. I believe K-LOVE serves the public interest by providing family-friendly programming, which supports wholesome values. It has a positive impact on our community and nationwide.

Thank you for your consideration.
